Ankit Deepak

adeepkit01.github.io | adadeepak8@gmail.com | 9980770199

EDUCATION

NITK SURATHKAL
BTECH IN COMPUTER SCIENCE
Expected May 2017
CGPA after VI sem: 8.97 / 10

CHINMAYA VIDYALAYA
Grad. May 2013 | Bokaro, India

ST FRANCIS SCHOOL
Grad. May 2011 | Deoghar, India

LINKS

COURSEWORK

UNDERGRADUATE
Data Structures and Algorithms
Design and Analysis of Algorithms
Operating Systems
Distributed Computing Systems
Computer Networks
Computer Architecture
Compiler Design
Advanced Computer Networks
Advanced Data Structures
Internet Technologies and Applications

SKILLS

PROGRAMMING
Fluent
Java • C • C++ • Python •
Django • ns-3 • LaTeX • Git
Familiar:
Ruby • HTML • CSS • MySQL
• Android • Shell • C# • Julia
• Mercurial

ACTIVITIES

Campus Ambassador GeeksForGeeks
Convenor of Web Enthusiast's club NITK
Executive Member of IE NITK
Joint Convenor of Engineer 2016
NTSE Scholar

EXPERIENCE

MICROSOFT IDC |SUMMER INTERN
June 2016 | Hyderabad, India
- Worked under the Foundry programme, was offered a pre placement offer after completion of internship.

MOOG FLIGHT CONTROL |SUMMER INTERN
June 2015 | Bangalore, India

- Build an embedded system for flight controls on a Jetson Tegra TK1 chip utilising all the cores efficiently

CONCAT |SUMMER INTERN
May- July 2015 | Work From Home
- Built API for this Django based website and optimised the search

PUBLICATION

PARALLEL DYNAMIC APPROACH FOR DATA ANALYSIS
Publication on data analysis and pattern recognition accepted by ICRCICN 2015, Kolkata and published in IEEE Explore

USING GENETIC ALGORITHM FOR PROCESS MIGRATION IN MULTICORE KERNEL
Publication on multicore operating systems presented at COMNET 2016, Ahmedabad

IPV6 SUPPORT FOR OLSR
Short paper on implementation of OLSR routing algorithm for IPv6 addresses in NS3 accepted in WNS3 2016, Seattle, Washington

IMAGE PROCESSING APPROACH TO DIAGNOSE EYE DISEASES
Publication on Image Processing and Computer Vision in medical accepted at ACIIDS 2017, Japan.

SMART KEY GENERATION FOR SMART CITIES
Publication on security in smart cities accepted at CICT 2017, Ghaziabad.

PROJECTS

NS-3 CONTRIBUTIONS
- Support for DHCP in latest versions of ns-3
- Support for IPv6 Addressing in existing OLSR and DSDV modules of ns-3
- Support for Python 3 for ns-3 integration tool, Bake
- Support for Python 3 for ns-3 utilities
- Implementation of TCP LEDBAT for ns-3
- Modifying bake for support for contributed modules
